

# Who We Are

## Background

Speakent is a 3-month transformation program designed to turn hesitant English learners into confident speakers.

We don't just teach grammar — we train mindset, fluency, clarity, and real-life communication.

Our focus is simple: Make you speak naturally, confidently, and without fear.

## Values

At Speakent, we believe confidence matters more than perfection. Growth happens when you practice daily, make mistakes comfortably, and improve step by step.

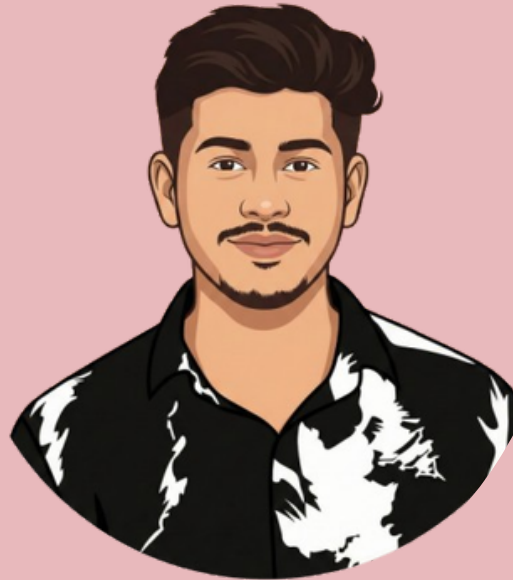

We create a safe and motivating environment where speaking becomes a habit, not a fear.

The goal is not to sound fancy — it's to sound clear, natural, and confident.

## Goals

Our mission is simple — visible transformation in 90 days. From hesitation to clarity. From overthinking to smooth expression. From understanding English to actually speaking it.

We aim to build speakers who can handle interviews, presentations, conversations, and real-life situations with confidence and control.

# Programs & Training

## Foundation Phase

This phase focuses on clearing hesitation and building a strong speaking base. Students work on sentence formation, daily speaking drills, and practical grammar application so that communication becomes clear and structured. The goal here is comfort — speaking without fear or overthinking.

## Fluency & Confidence Phase

Once the foundation is strong, the focus shifts to natural flow, voice clarity, and real conversation practice. Through group discussions, role plays, and live interaction exercises, students develop the ability to think in English and respond confidently in real time.

# Programs & Pricing

## Packages

Speakent offers a focused 3-month transformation program designed to build real speaking confidence through structured practice, guided feedback, and live interaction training. Every phase is practical, performance-based, and result-oriented.

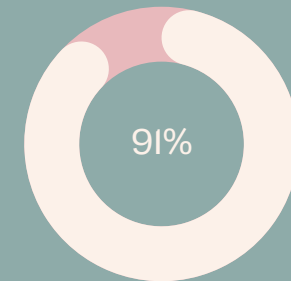

Offerings	Price
Original Program Fee	₹2999
